

**Invitation au symposium
Advanced technologies in immunomonitoring:
from basic research to clinical trials**

29 30 mars 2010
Auditorium du CEA de Fontenay aux Roses

Nom :

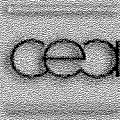

Prénom :

Société :

Je vous confirme ma présence au symposium les 29 et 30 mars prochain

Je vous confirme ma présence à la soirée au Pré Catelan

Merci de bien vouloir nous retourner votre invitation complétée au 01 39 30 62 99 au plus tard
22 février 2010.

Advanced technologies in immunomonitoring: From basic research to clinical trials 29 - 30 March 2010

We are pleased to announce you the 1st symposium about immunomonitoring co-organised by SPI-Bio (Mr. Xavier Morge) and the CEA - SIV (Mr. Roger Legrand) in Paris outskirts.

SCIENTIFIC PROGRAMME

Monday 29th March 2010

Opening Session

R. Le Grand (CEA, France) and X. Morge (SPI-Bio, France)

Session I: Clinical trials: Regulatory aspects

Safety aspects of biotherapeutic products (Pr. M. Pallardy, INSERM, France)

Regulatory requirements for clinical trials (F. Verdier, Sanofi-Pasteur, France)

Session II: Deciphering the immune response

Assessing T-Cell memory in antiviral vaccines (RP. Sekaly, Vaccine and gene therapy Institute, Canada)

Immunomonitoring in clinical trials (Pr. Y. Levy, INSERM, Paris)

Session III: Advanced technologies in immunomonitoring

New perspectives in standardisation in immunomonitoring (F. Navarro & JP. Aubry, BD Biosciences, France)

New tools for multiparametric analysis (C. Vallan, FlowJo, France)

High throughput management of data from flow cytometry (A. Cosma, CEA, France)

Session IV: Early biomarkers identification and predictivity in clinical trials (Part I)

Assessing immune response in dendritic cell based vaccines (Pr. J. Banchereau,

Baylor Institute for Immunological Research, USA)

Measuring the status of the immune system through blood genomics (D. Chaussabel, Baylor Institute for Immunological Research, USA)

Tuesday 30th March 2010

Session IV: Early biomarkers identification and predictivity in clinical trials (Part II)

Immunomonitoring of patients treated with TNF- α antagonists (Pr. D. Emilie, INSERM, France)

Biomarkers in sublingual immunotherapy (L. Van Overtvelt, Stallergenes, France)

Session V: Translational immunological approaches

Immunomonitoring in early clinical trials (Pr. R. Josien & S. Breche, TcLand expression, CIMNA, France)

Interest of pre-clinic assays in immunological biosafety (SPI-Bio, France)

Multiparametric approaches (Biorad, USA)

Closing Session

R. Le Grand (CEA, France) and X. Morge (SPI-Bio, France)

For any further information, please visit our website and get registered here!

Do not hesitate to contact us for any information about being part of the event as a sponsor.

Look forward to meeting you during this symposium.
